OREGON CENTENNIAL ELONGATED CENT

Most collectors of the Oregon Centennial commemorative medals and tokens issued during 1959 will want to include this piece, which is illustrated on the cover, in their collections The illustration of the obverse is twice actual size, while the reverse is actual size. These pieces were made on the Centennial Grounds in Portland, during the time the Centennial was being celebrated there.

These pieces are uniface, although the design of the cent can be seen on the reverse. The obverse has a beaded border. Around, top, **OREGON ★ 100TH ANNIVERSARY**; bottom, **1859 CELEBRATION 1959.** The central design is a very crude imitation of the official Oregon Centennial Emblem, in fact at first glance it would not be recognized as such. This oval piece is approximately 37mm by 19mm, at the widest points.

COLORADO CENTENNIAL "GOLD DUST POKES"

This year has brought forth many interesting and different commemorative medals and tokens . . . the Oregon Centennial elongated cent . . . the Walla Walla, Washington 59c Centennial bucks . . . the Alaskan Statehood transportation token released by Alaska Overland . . . the Colorado Centennial-Gold Rush Celebration medal with a lump of imitation gold attached . . . but none are quite as interesting or different as the "Gold Dust Pokes" put out by the Gold Dust Exchange, Boulder, Colorado. These pokes had a face value of 25c, during the Colorado Centennial Celebration.

The "Gold Dust Poke" is a plastic envelope which is filled with ore tailings which contain real gold. The poke is approximately 2¼" x 1 3/16". The tailings in these pokes came from the mill pond of the old Boulder Mill, which operated from 1870 thru 1935, and the gold content is figured to average out to about 26c per poke, although the value of the gold in any one poke might average anywhere from 5c to $1.00.

There were 1,000,000 of the pokes manufactured by Packageers Company, Chicago, Illinois. Approximately nine tons of the tailings were shipped from Boulder to Chicago for packaging.

The design and lettering on the obverse of the package runs the narrow way, while the lettering on the reverse runs the

(continued on inside back cover)

Foreword

At last collectors of medals, tokens and commemorative pieces see a glimmer of hope to an orderly continuation of their hobby in this painstaking and selfless contribution by Mishler begun in 1959. Not since Kenney's has there been any attempt to list and describe strikings and emissions that for many appear unannounced and soon become unobtainable or 'rare'. In presenting this issue Mr. Mishler improves in his 'one man band' for all collectors and particularly those interested in this branch of numismatics, an effort that merits the acclaim and support of all.

Harry M. Lessin
A. N. A. (L. M. 213)

Acknowledgments

This listing could not possibly have been compiled without the wonderful cooperation which has been provided by numerous individuals. Special thanks are due James Walser, Russell Fister, and Melvin Carmichael, for their help on the New York, Oklahoma, and Oregon sections, respectively. These sections would probably not be nearly so complete without their help. Tremendous help was also provided by Melvin and George Fuld, and William E. Bryant (Vice President of Wendell-Northwestern, the firm which strikes the majority of the commemorative tokens) on most other sections.

EDITOR'S VIEWS AND COMMENTS

Well, the second annual listing of UNITED STATES and CANADIAN COMMEMORATIVE MEDALS and TOKENS has finally become a reality. The reception of the 1958 listing was not exactly overwhelming, but it was at least good enough to warrant this second annual listing. I hope this listing will enjoy more popularity and a wider distribution, but even if not, as long as it breaks even from a financial point of view it will be continued.

Many circumstances delayed publication of this listing, so it is now appearing about five months later than the target date indicated in the 1958 listing. One of the reasons was a decision to include illustrations of all pieces. At least half of the collectors who purchased copies of the 1958 listing expressed hope that I could see the way clear to do this, and they indicated a willingness to pay the extra cost for this new feature. It was not until early December that I decided to definitely include plates, and ANS photographing is taking at least three months at the present time.

Another reason for the publication delay, one that will keep future listings from being published much earlier, is that it is impossible to find out about a lot of issues, and get information on them before December or January. I think it is in the best interest of everyone to keep the size of the supplements down to a minimum, and in order to do this the early publication date will have to be sacrificed. Already there are a couple 1959 issues in my hands which will not be included in this listing, along with leads on two or three others.

On page four is a listing of some general rules to follow in considering material for listing. It must be remembered that these are not stringent rules, rather they must be expanded and/or contracted in order to suit specific cases. Whenever you discover a piece which seems to be on the brink, please let me know so that a definite decision can be made.

Remember, whenever a new commemorative medal or token

RULES FOLLOWED IN CONSIDERING MATERIAL FOR LISTING

1. Must be issued in commemoration of an event of local, state, or national importance.
2. No pieces issued in commemoration of the anniversary of a private firm are listed, unless they also commemorate an event of local, state or national importance.
3. Pieces issued by any numismatic clubs, associations, or societies, in commemoration of anniversaries, conventions, or any event.
4. Convention badges which have medallions attached as pendants are not included unless they fit in with a series of medals commemorating the same event. Then only the actual medallion itself is listed.
5. Pieces commemorating formal dedications, grand openings, etc., of public buildings, memorials, etc.
6. The anniversary, convention, and other medals issued by organizations such as the Masons will be listed.
7. Any piece which is listed must bear the date of the current year, or if not the actual date, there must be some reference to the date.
8. Pieces which are listed must be made by compressing a material between two dies, thus the piece has an irregular surface, rather than a printed one like wooden-nickels. In most cases this material will be a metal, although in some cases a plastic or fiber material is used, and perhaps in some cases other materials are used.
9. Plated varieties of listed pieces are not listed, unless the plated pieces were issued by the original issuer, rather than an enterprising individual as is often the case.
10. Any pieces which are listed must qualify under some of the provisions set forth above, although it is not necessary that all of the conditions are met.

INTRODUCTION

In order to explain the numbering system used in this listing, the following number is used as an example:

59 . M . 02 . 01a (the number)

1 2 3 4

PART 1. This number indicates the year in which the piece was issued, this case of course indicating the year 1959.

PART 2. This letter indicates rather the piece is a medal or token; M, for medal and, T, for token. I have classifed the pieces under the medal heading if they have no indication of value, or were not used as money during the celebration of the event commemorated. It is classified as a token if it does have an indication of value, or was used as money during the celebration of the event commemorated.

PART 3. This number indicates the state or dominion in which the piece was issued, as follows:

01 - Alabama
02 - Alaska
03 - Arizona
04 - Arkansas
05 - California
06 - Colorado
07 - Connecticut
08 - Delaware
09 - Florida
10 - Georgia
51 - Hawaii
11 - Idaho
12 - Illinois
13 - Indiana
14 - Iowa
15 - Kansas
16 - Kentucky
17 - Louisiana
18 - Maine
19 - Maryland
20 - Massachusetts
21 - Michigan
22 - Minnesota
23 - Mississippi
24 - Missouri
25 - Montana
26 - Nebraska
27 - Nevada
28 - New Hampshire
29 - New Jersey
30 - New Mexico
31 - New York
32 - North Carolina
33 - North Dakota
34 - Ohio
35 - Oklahoma
36 - Oregon
37 - Pennsylvania
38 - Rhode Island
39 - South Carolina
40 - South Dakota
41 - Tennessee
42 - Texas
43 - Utah
44 - Vermont
45 - Virginia
46 - Washington
47 - West Virginia
48 - Wisconsin
49 - Wyoming
50 - District of Columbia
51 - Hawaii
55 - United States (general)
61 - Alberta
62 - British Columbia
63 - Manitoba
64 - New Brunswick
65 - Newfoundland
66 - Nova Scotia
67 - Ontario
68 - Prince Edward Island
69 - Quebec
70 - Saskatchewan
75 - Canadian (general)

PART 4. This number indicates the individual number of the piece. Each piece of a different design is given a new number, even if the issuer is the same; also, even when the design is the same, only it is struck on a different size planchet, a new number is given. A small letter following this number indicates that a piece of the same design, size, and issuer was struck in more than one metal; the letters have also been used to indicate pieces with and without, and with different sizes of keychain holes, etc.

So, the number used in the example above indicates a medal

issued in Alaska during 1959. It is the piece which was authorized by the Alaskan State Legislature, and struck in bronze.

Below the obverse and reverse descriptions are listed all of the details about the medal:

EDGE: The type of edge is indicated here; plain, lettered, numbered, reeded, etc. (When it is indicated here that the piece is scalloped, it means that the outside perimeter is made up of a series of semicircular curves.)

METAL: The metal or finish in which the piece was struck.

DMR: The diameter of the piece in mm's.

s-square, h-hexagon, o-octagon — When any one of these letters follow the number which indicates the diameter of the piece, the diameter indicates the distance between parallel sides.

m-maximum — On other irregular shaped pieces this letter indicates the distance between the most distant points.

CS: The number of copies which were struck of the piece.
a—Approximately

IP: The price at which the piece was originally released to the public and collectors.
free—It was initially released free of charge, generally for advertising purposes.
award—No copies were released to the public, at least in most cases, instead they were given to important people as awards.

SB: The name of the firm which struck the piece, as follows:
af—Aug. C. Frank Co., Philadelphia, Penna.
ar—Alan Randal Company, Los Angeles, California
bb—Bastian Bros., Rochester, New York
bs—Birks & Sons, Ottawa, Ontario, Canada
bu—Business Builders, Cincinnati, Ohio
cb—Cornwall Brass, Cornwall, Ontario, Can.
dc—Dieges & Clust, New York, N. Y.
ha—Heraldic Art, Box 5891, Cleveland 1, Ohio
lt—Little & Taylor, Victoria, B. C., Canada
ma—Medallic Art Co., New York, New York
mw—Meyer & Wenthe, Chicago, Illinois
ne—W. T. Niel Co., San Antonio, Texas
oc—Osborne Coinage Co., Cincinnati, Ohio
ph—U. S. Mint, Philadelphia, Pennsylvania
ps—Puget Sound Stamp Works, Seattle, Wash.
rb—Robbins Co., Attleboro, Massachusetts
ss—Spink & Sons, London, England
sw—Spokane Stamps Works, Spokane, Wash.
wh—Whitehead & Hoag, Newark, New Jersey
wn—Wendell-Northwester, Minneapolis, Minn.

DSR: The designers name is listed here. When there is a diagonal between two names, the first designed the obverse and the second the reverse. When there is an & between two names, the two worked together, and neither did one side in its entirety.

ISR: This is the name and address of the firm or organization

(continued on page 7)

LINCOLN SESQUICENTENNIAL STORE CARDS
issued by the
FEDERAL COIN EXCHANGE

These pieces deserve a place in the collection of anyone who collects Lincoln numismatic items, rather his speciality is coins, medals, or tokens. Even though they were issued during 1959, they are not being listed in the regular listing, because there is no reference on the piece to this date.

This store card was designed and issued by the Federal Coin Exchange, Cleveland, Ohio, with a number of purposes in mind. The head of Lincoln on the obverse commemorates the 150th anniversary of his birth, and the completion of its first 50 years use on the Lincoln cent. The "cartwheel" rim on the obverse is reminiscent of the famous English issue of 1797. The wording **FEDERAL COIN EXCHANGE** upon this rim represents the advertising feature of the piece, with the date **1942** indicating the year in which the firm was founded.

On the reverse, the engine-turned design is the type used on the ten and twenty dollar California gold pieces put out by the United States Assay Office. In the area with the plain background, in the middle, are the addresses of the two Cleveland stores of this firm; **37 THE ARCADE / CLEVELAND / 5940 PEARL ROAD.** It is on the reverse where we distinguish between two major types for this token, although there are several metal varieties. The difference between the two reverses, which will be referred to as Reverse #1 and Reverse #2, is that Reverse #2 has a six-pointed star to each side of CLEVELAND, while Reverse #1 does not.

#1

Reverse #1, struck in aluminum. There were 440 copies struck.

#2

Reverse #2, struck in aluminum. There were 1,150 copies struck.

#3

Reverse #1, struck in copper. There were 12 copies struck.

#4

Reverse #2, struck in copper. There were 380 copies struck.

#5

Reverse #1, struck in 14K gold. There was 1 copy struck.

INTRODUCTION (continued from page 6)

which released the pieces to the public and collectors; or in some cases where the organization which undertook the issue had someone else distribute it, the name of the first organization is listed.

PL: The plate number on which the piece is illustrated. When this number is followed by, (enl), the piece as illustrated on the plate is twice actual size.

#6

A piece was struck in aluminum, using Reverse #1, and the reverse die of a Virginia Shilling facsimile.

Mr. Kolman, who owns the Federal Coin Exchange, is one of the leading members of the Collectors of Mint Errors, and consequently, in addition to the regular pieces listed above, a number of pieces were intentionally struck mint errors. These error pieces were of a great variety; off center, double struck, clipped planchet, shifted dies, etc. The errors were struck in the following numbers (approximately): Reverse #1 in aluminum, 150; Reverse #2 in aluminum, 100; Reverse #1 in copper, 24; Reverse #2 in copper, 16. A few more pieces, one or maybe two of each, were struck in copper with a slight aluminum inlay and vice versa, and also thin planchets, plus one on a thin brass planchet.

The Heraldic Art firm of Cleveland, Ohio, handled the striking of these pieces. These pieces have a diameter of 26mm, and the edges are plain.

As this project was intended primarily for its obvious advertising advantages, the bulk of the tokens had been disposed of in that way, the remaining pieces were sold at prices which ranged from $0.50 thru $5.00, according to their relative rarity.

EDITOR'S VIEWS (continued from page 2)

comes out, and if it has not been given a plug in any of the larger national numismatic publications (namely the NUMISMATIST, SCRAPBOOK, CNJ, NUMISMATIC NEWS, COIN WORLD, or

*This piece is six-sided (octagonal), but none of the sides are parallel, and the maximum distance from any one point is approximately 39mm, while the minimum is about 31mm. This piece is pierced with a 3/16″ hole between the dates on the obverse.

It should be mentioned here that private individuals are silver-plating most of the above issues, and selling them for $1.00 to $1.50. It was decided that it would be best not to list these pieces, however those pieces which were plated and sold by the original issuing agency are listed; they being numbers 59 . M . 36 . 03b, 59 . M . 36 . 04b, 59 . M . 36 . 10a, and 59 . M . 36 . 10f. All of the pieces which were silver or nickel plated, other than these four, were done as a profit making venture by individuals, and if they were to be included, the pages of this listing would then be open to many such unworthy issues.

Instructions for Inserting Supplement Into Regular 1958 Listing

For those who would like to remove this supplement, and insert it into the original 1958 listing, it is suggested that the following instructions be followed:

1. Open this 1958 Supplement to the middle pages.
2. Using a letter opener bend the points of the staples up, so that the pages can be removed without tearing.
3. After removing the 1958 supplement pages, bend the staples over on the remaining pages.
4. Take the stapler from your desk and remove two staples, being careful not to clinch them, and insert them into the original staple holes in the 1958 supplement, then bend them over.
5. Now take the original 1958 listing and open it to page 26.
6. Lay a bead of quick-dry cement in the binding valley along the right side of this page.
7. Take the 1958 supplement and push it firmly into this valley and close the booklet.
8. Place a couple heavy books on top of the booklet, to act as a "press".
9. After allowing time for the glue to dry, remove the "press" and trim any excess from the 1958 supplement, which sticks out beyond the edge of the original 1958 listing.

NEW VARIETIES OF PIECES IN THE 1958 LISTINGS

VERMONT

58 . T . 44 . 01e

The same as 58 . T . 44 . 01a, except that it was struck in Sterling Silver. There were five pieces struck, and issued at $3.00 each.

1958 CANADIAN MEDALS ADDITIONS

BRITISH COLUMBIA

58 . M . 62 . 07

This piece has the shape of a five-petal dogwood flower.

OBVERSE: A dogwood which has the petals inlaid in white enamel, and the bud in yellow; the border of the bud is formed with eleven arcs. On the bud is a design very similar, but more detailed, to the Official Centennial Crest on other centennial pieces; it is inlaid in light and dark green, black, and blue enamel. The dark green is in the trees, the light green in the water lines on the shield, the black is around the dates and in the flag, and the blue is also in the flag. The entire obverse is outlined in silver.

REVERSE: Plain and dished; an area in the center, with a diameter of 34mm, is depressed further than the outer area.

EDGE: Plain.

METAL: Silver

The same remarks which were made at the end of the Oregon medal section in reference to nickel or silver plated pieces, apply here. The

only pieces which were plated and issued by the original issuing agency are listed; they being numbers 59 . T . 36 . 10b and 59 . T . 36 . 10c. There is also one legitimate gold plated issue, that being number 59 . T . 36 . 20a.

VERMONT

59 . T . 31 . 01 was issued from headquarters in two cities, the second being Burlington, Vermont. So, it should properly be listed for both states, but rather than assign two different numbers to the same piece, it will just be mentioned here for the convenience of collecors of Vermont tokens.

WASHINGTON

59 . T . 46 . 01

OBVERSE: Around in an outer ring, top, **1909 EATONVILLE 1959**; bottom, **GOLDEN ANNIVERSARY.** Around in an inner ring. top, **TOWN OF EATONVILLE**; bottom, **STATE OF WASHINGTON**; a five-pointed star on each side separates the top and bottom lettering. EDITOR'S VIEWS (continued from page 8)

COIN PRESS), please drop me a post-card. Let me know the issuer, the price, and any other information which you feel is pertinent. I can not possibly put out a listing which is anywhere near complete without cooperation on this matter from you collectors across the country. Please do not take the attitude which is too often, and too easily taken, that someone else has already reported the issue.

Although several display ads were received, it was decided that no ads would be used. Although the ads would bring the retail price of the booklet down somewhat, I decided that most collectors would like to have a reference which does not include them. No collectors expressed an interest in the classified section, so that has been dropped also. This is the advertising which I figured would be very popular.

I hope everyone enjoys the feature articles which are presented on the opening pages of this listing. The 1960 listing will have articles on both the CNA and NENA convention medals, plus others to be selected later.

I believe that this piece was issued in some locality around Cincinnati, Ohio, as it was sent to me by a collector from there. However, no definite information is available which would verify the actual place of origin.

AN ADVERTISING TOKEN

One of the more beautifully designed and executed small bas-relief medals to be struck recently, is this advertising piece put out by the Wendell-Northwestern firm, of Minneapolis, Minnesota. This firm is the largest producer of low priced commemorative medals and tokens in the United States. To mark the 45th convention of the Marking Device Association during 1959, they produced and distributed a large number of these pieces.

The upper half of the obverse design portrays the "Golden Gate" bridge against a coastal background, along with the name of the city in which the convention was held to the left and below the bridge, **SAN / FRANCISCO.** One of the famous San Francisco "Cable Cars" is portrayed on a steep incline on the lower half, and around the bottom, **THE CITY BY THE GOLDEN GATE.**

The reverse is inscribed in seven lines, **45TH CONVENTION / MARKING DEVICE / ASSOCIATION / OCTOBER 7-9 1959 / A MARKING INDUSTRY / PRODUCT / BY WENDELL-NORTHWESTERN, INC.**

These pieces have a diameter of 34mm, and were struck in a gilt finish. They were distributed free of charge to those attending the convention, by Wendell-Northwestern, as mementoes of the event.

COLORADO CENTENNIAL GOLD DUST POKES

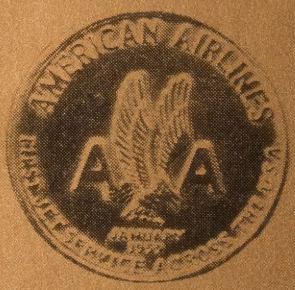
(continued from inside front cover)

long way. The obverse design . . . Across, top, on three lines, **GOLD / POKE / good for 25c in trade;** bottom, on two lines, **At Participating merchants / MAY 1-SEPT. 30, 1959.** In the center is a design which is the same as Colorado medal number 59 . M . 06 . 01. The reverse design . . . . Across, top, on two lines, **This Gold Poke filled with ore tailings from / the Boulder Mill near Boulder, Colorado;** bottom, on two lines, **CONTAINS REAL GOLD! / 1859-COLORADO CENTENNIAL-1959**

AMERICAN AIRLINES "JET DOLLAR"

On January 25,1959American Airlines inaugurated the first commercial jet flight across the United States. As a token of its esteem, the company commissioned Mr. Joseph di Lorenzo to execute the designs for a commemorative medal to mark the epic event, copies of which were presented to the people who shared in these pioneer flights.

The medal has a diameter of 38mm, and the central device on the obverse is the official insignia of American Airlines. Immedately below the insignia, **JANUARY / 1959**; around the outer edge, top, **AMERICAN AIRLINES**, bottom, **FIRST JET SERVICE ACROSS THE U. S. A.** The central device on the reverse is a replica of the jet in flight to the right; around the outer edge, top, **A NEW ERA BEGINS**, bottom, **707 JET FLAGSHIP.** The striking of the medals was handled by the Medallic Art Company.



There were originally 8,500 copies of the medal struck in German Silver for presentation to those who took part in the pre-inaugural and inaugural flights. These pieces all had plain edges.

After the original order was all used up, Mr. Harry M. Lessin, of Norwak, Connecticut, obtained permission from the company to have 250 copies struck in Sterling Silver. These pieces were all consecutively numbered 1-250 on the edge. The edges of all of these pieces were also lettered, **MEDALLIC ART CO. N. Y. STERLING.** In addition the pieces numbered 1-50 also have the name of the person who received the medal lettered in the edge.

As the original order for 250 Sterling Silver pieces was oversubscribed, another striking was authorized. This time it was for 150 unnumbered pieces; these pieces have the edge lettered, **MEDALLIC ART CO. N. Y. STERLING SILVER.**

Along about the same time as these last Sterling pieces were struck, an additional order for 400 more German Silver copies with the plain edge was placed. So, the final total number of pieces struck is; 8,900 in German Silver, and 400 copies in Sterling Silver.

The medals distributed to collectors by Mr. Lessin were priced as follows; Sterling Silver @ $4.75, and German Silver @ $2.15. These prices represented the actual expenses incurred, Mr. Lessin handling them as a service to collectors.
